**SLACK and ISRS Name James Bradley Randleman, MD,
Chief Medical Editor of the Journal of Refractive Surgery**

THOROFARE, NJ – SLACK Incorporated, a premier medical publishing company, and the International Society of Refractive Surgery (ISRS), a partner of the American Academy of Ophthalmology (AAO), are pleased to announce James Bradley Randleman, MD has been named the Editor-in-Chief of the JOURNAL OF REFRACTIVE SURGERY. Dr. Randleman will be responsible for the overall quality, integrity and content of the Journal to ensure it continues to be considered a highly respected source of current, relevant and innovative content in the fields of refractive, cornea and lens-based surgery by ophthalmologists in the field worldwide.

Dr. Randleman is currently an Assistant Professor in the Department of Ophthalmology at Emory University. His areas of expertise include a variety of refractive surgery procedures, the management of corneal and external eye diseases, corneal transplantation and cataract surgery. Recognized as an authority on the diagnosis and management of corneal diseases, Dr. Randleman has given more than 50 hours of lectures and has authored more than 30 publications in leading ophthalmic journals.

"I am honored and humbled to take on the role of Editor-in-Chief for the JOURNAL OF REFRACTIVE SURGERY," shared Dr. Randleman. "I am particularly excited by the possibilities that lie ahead. As I begin my tenure and assume this position, my goal will be to seek out the best, most informative, practice-changing articles in our field and usher them to publication and dissemination expeditiously. I am looking forward to applying my energies to facilitate that process."

The JOURNAL OF REFRACTIVE SURGERY, currently in its 27th year of publication, is the official Journal of the International Society of Refractive Surgery, a partner of the American Academy of Ophthalmology. It is a monthly peer-reviewed forum for original research, review, and evaluation of refractive and lens-based surgical procedures. Practical, clinically valuable articles provide readers with the most up-to-date information regarding advances in the field of refractive surgery. The JOURNAL OF REFRACTIVE SURGERY is available online at JournalofRefractiveSurgery.com.

With roots reaching back to 1923, SLACK is a leading provider of information to targeted health care specialties. SLACK produces 26 publications in print and online; publishes more than 250 medical and allied health books; creates and operates more than 50 Websites and Internet-related projects; directs meetings and exhibits around the world; and produces custom newspapers and meeting supplements for a growing number of health care conventions and meetings.

The International Society of Refractive Surgery (ISRS), a partner of the American Academy of Ophthalmology, is the leading worldwide organization dedicated to refractive, cornea, cataract and lens-based education and solutions. Members are connected to the world's leading refractive surgeons from over 80 countries through meetings, publications and online educational tools. To learn more, visit www.isrs.org.
